

siveco | The CMMS specialist
Group

Siveco Group has developed Maintenance Management software since 1986 and is today a key CMMS player in France and throughout the world. Over 40 years, Siveco Group has acquired a solid experience in the management of projects of all sizes. Our Company gives priority to Customer Care and has succeeded in building customers loyalty with both International Major Groups and SMEs.

CMMS, the indispensable tool to steer your maintenance operations

CMMS has become essential to manage and steer your maintenance department. CMMS software is a valuable tracking, archiving and analysis tool, so a decisional aid. Benefits are numerous: reduction of material costs, increase in the availability and reliability of equipment, improvements in cost control, maintenance planning, actual maintenance time and spare parts management.

A tailor-made offering

Each client has their own identity, organization, commercial and information systems. That is why our Coswin software range has been conceived to respond to your specific needs. Whatever the size of your organization, whatever your business, we provide a solution adapted to your needs. Siveco Group has also built up a network of partners, which means that Coswin now goes beyond CMMS to provide our customers with comprehensive solutions.
