# Coswin 8i

CMMS for transport and logistics

Coswin 8i meets the needs of companies that operate in the transport & logistics sector.

The Coswin 8i CMMS solution offers functions dedicated to the maintenance of your rolling stock, fixed installations and infrastructures.

- Equipment status
- Odometers and schedules
- Fuel consumption
- Equipment management by serial numbers
- Linear Asset Management
- Contracts and warranties management
- Regulatory controls
- Staff management (qualification, travel, subcontractors)
- Shutdown management
- Interface with supervision systems in order to receive warnings

- Intuitive & ultra-customisable solution
- Available on-premise & SaaS
- Runs on Oracle or Microsoft Sql Server databases
Optional:
- Mobility: Coswin Nom@d mobile app & Coswin Open web app
- Coswin Smart Generation CMMS 4.0 offer: IoT, BIM, GIS & BI modules
- Coswin Flow to standardise your processes

Coswin 8i is the CMMS of numerous ports and airports, but also of recognised organisations in transport and motorway infrastructure management.

Coswin 8i is a simple and scalable CMMS solution. It is suitable for your essential needs and can be adapted to your more complex constraints such as multi-site, multi-business configurations.
